

# STUDENTS PROSPECTUS 2015-2016

**SWAMI KARTIKEYAN VEDIC VISHWAVIDYALAYA**  
(AN INSTITUTION OF VEDIC & SCIENTIFIC RESEARCH)  
Autonomous | Accredited | Self Financed

# WELCOME TO

## Swami Kartikeyan Vedic Vishwavidyalaya (SKVV)

This is a Self Financed, Autonomous, Accredited, Career Oriented Vishwavidyalaya committed to providing top quality academic services to esteemed students. SKVV introduces life oriented consciousness based, value based system of education in main stream of modern science. The concept of SKVV is to teach vedas or scientific evolutions kept in ancient vedic education system with the help of modern technology of computer science.

New learning methodologies have evolved and, to a great extent, transformed professional education into a technology based industry. Swami Kartikeyan Vedic Vishwavidyalaya offers a number of accredited online programs in various streams. The degree, certificate and diploma programs offered by Swami Kartikeyan Vedic Vishwavidyalaya are accredited, accepted and recognized all over the world. Today, millions of students and working adults in different parts of the world seeking an online degree to enhance their academic and career profile; Swami Kartikeyan Vedic Vishwavidyalaya may be their final destination.

Online degrees are becoming a much fascinating for students looking to advance their education with the advancement of Technology. Online degrees at SKVV cover a wide range of educational programs, designed by experts of the field. Whether a student is pursuing an undergraduate degree or a post graduate degree, they will find studying online offers benefits and opportunities that traditional classroom setting degrees do not. At SKVV we tried to deliver a convenient way of learning in world class scenario."

Director Academics@ SKVV

## Benefits of getting an Online Degree at SKVV

Earning an online degree holds benefits that traditional lecture style classroom setting courses do not. Of these benefits, the most valuable is the ability for a student to do class work on their own time. In a classroom setting, courses are given at exact times that a student must attend. This can be a problem if a student has conflicting scheduling problems. Often times, a missed class can mean falling behind in the course. With an online degree, students have the ability to complete their work on their own time. At SKVV Online Tutorial classes will consist of weekly readings and assignments that need to be completed at the end of that specific week. This gives the student an entire week to review their work whenever they are available, be it after work, at night, or on the weekend.

Another major benefit to online degrees is the delivery method of class notes, readings and assignments. In lecture courses in the classroom, students must take notes during their class time while also trying to listen to the professor. This often leads to students missing some parts of the lecture and having to go to fellow classmates to fill in any holes in the notes they missed. In online classes at SKVV, you can download class notes, pre-recorded video/audio lectures, PDF, PPT for the modules of the courses. Students have all the course study materials and are able to access them any time they want. Quizzes and assignments are also delivered in online along with the learning courses. Students take tests and complete homework assignments just like in classroom courses, but they have the ability to use their course materials and textbooks.

Online students all agree on one thing: that they get the same, if not more, out of their educational experience as an online student as they would as a traditional classroom student. Online students have complete access to all the course materials whenever they need them, and this leads them to have a better understanding of the course materials. Online students have more time to devote to studying the class notes and readings, with the ability to watch video lectures multiple times. When online students find something interesting or have a question about a certain scenario or fact, they can share with their classmates using Group Discussion facility at SKVV.

## About Swami Kartikeyan Vedic Vishwavidyalaya

Swami Kartikeyan Vedic Vishwavidyalaya is a concept evolved to help and bless the society with education. Swami Kartikeyan Vedic Vishwavidyalaya, tries to educate and develop skills in working Indian youth. - Flexible Course Schedules
- Free Student Support & Consultancy services
- Online Lectures
- Online Tutor
- Online Assessments & Online Examinations
- Industry Training
- Job Assessment
- Legalization Services for International Students

## Swami Kartikeyan Vedic Vishwavidyalaya at its core

In the spirit of Shri Sarvepalli Radhakrishnan's vision, "the end product of education should be a free, creative man who can battle against historical circumstances and adversities". The Vishwavidyalaya must, therefore, be a place to help the youth develop themselves to their fullest potential and contribute to the inclusive development of the nation and a peaceful global society.

The Vishwavidhyalaya should prepare the youth to meet the challenges of a knowledge-based society, and carve out opportunities for themselves by learning to compete globally. In this direction, the need to train them outside of their regional or national "boxes" becomes a crucial component

- We need to be cognizant that education is the highest leveler of all inequities.
- We need to strengthen and promote research in interdisciplinary areas.
- We should inculcate values that incorporate diligence, perseverance, honesty, and integrity by upholding the parameters of transparency and accountability. We must imbibe what Albert Einstein believed: "try not to become a man of success, but rather to become a man of values".
- We need to create a team of dedicated research-focused faculty, and give them the opportunities and responsibility for initiatives, and reward them for notable effort and results.

To me, strong leadership is about consensus building, effective navigation, and balancing and synergizing the pillars of an institution such as ours: its students, faculty, and administration. The reporting system is the key to the health of an institution. Transparency and accountability have to be the motto of every establishment as it reflects quality, confidence, and trust. For a strong organizational structure, I believe, there has to be a periodic macro and microanalysis of our strengths and shortcomings. Corrective measures, consolidation, and capacity building will then be in order.

I believe Henry Ford was right when he said "coming together is the beginning, keeping together is progress, and working together is success".

Best wishes,  
Vice - Chancellor@SKVV

## Doctorate Degree (Ph. D. Program) from SKVV

Getting a doctorate degree is the highest level of academic achievement that anyone can attain during his educational career. Keeping in mind the significance of this degree, it is important to state here that achieving a doctorate degree is not easy at all. It tests the potentials and competencies of the student to the maximum and at the same time help students explore opportunities through which they can develop a better and more effective framework for their research.

Another salient feature of the doctorate degree is the fact that whenever students engage in the process of research or thesis formation, it is important that they remain in constant interaction with the instructions and guidance that they are provided by their supervisor. Until and unless they are not able to adhere to the instructions provided by the supervisor, it is not possible for the student to complete their PhD degree smoothly. Keeping this thing in mind it is always a concern for students especially that are doing online Ph. D. regarding the ways through which they can remain in touch with their supervisor. However, with the constant developments that has taken place in the realm of online education many online institutes and universities have initiated and incorporated mechanisms through which students enrolling in doctorate degree programs can easily interact with the supervisor through web cam and other technical conveniences of communication that are provided to the student by the university administration. Hence, all this add greater convenience and easiness to the doctorate degree program that the student wants to enroll in. SKVV while designing and forming its doctorate degree program has taken special consideration to ensure that the students enrolling in the vishwavidyalaya are provided with the best and state of the art communication facilities that can help them complete their Ph. D. in an effective and hassle free manner.

SKVV has the faculty and a proper team that provide students ample room and scope through which they can enroll in various Ph. D. programs in various disciplines and achieve their doctorate degree without any difficulty.

# Honorary Doctorate Degree

## Introduction

The SKVV invites nominations for Honorary Doctorate Degrees to be awarded at each year in 'SKVV Convocation Program'. The nomination and approval process for Honorary Doctorates is based on public survey and expert committee's report. At the beginning of the academic year, we will list the nominee's names on SKVV website. Public voting structure will also be designed and placed on the website. Any individual person (not from his/her family, but influenced by nominee's aura) can vote for the nominee to get SKVV Honorary Doctorate Degree. After screening the voting and Research council's recommendations, SKVV will be awarding the "Honorary Doctorate". Nominations can be sent by any Individual person who has achieved something in their life which make distinguish him as extraordinary.

## Eligibility

An Honorary Doctorate is the highest honor awarded by Swami Kartikeyan Vedic Vishwavidyalaya, awarded to those who have made extraordinary performance in any field or to help upgrading the society are to be considered. A nominee must have sufficient knowledge and recognition to make sure that the awarding of an honorary degree enhances the reputation of SKVV.

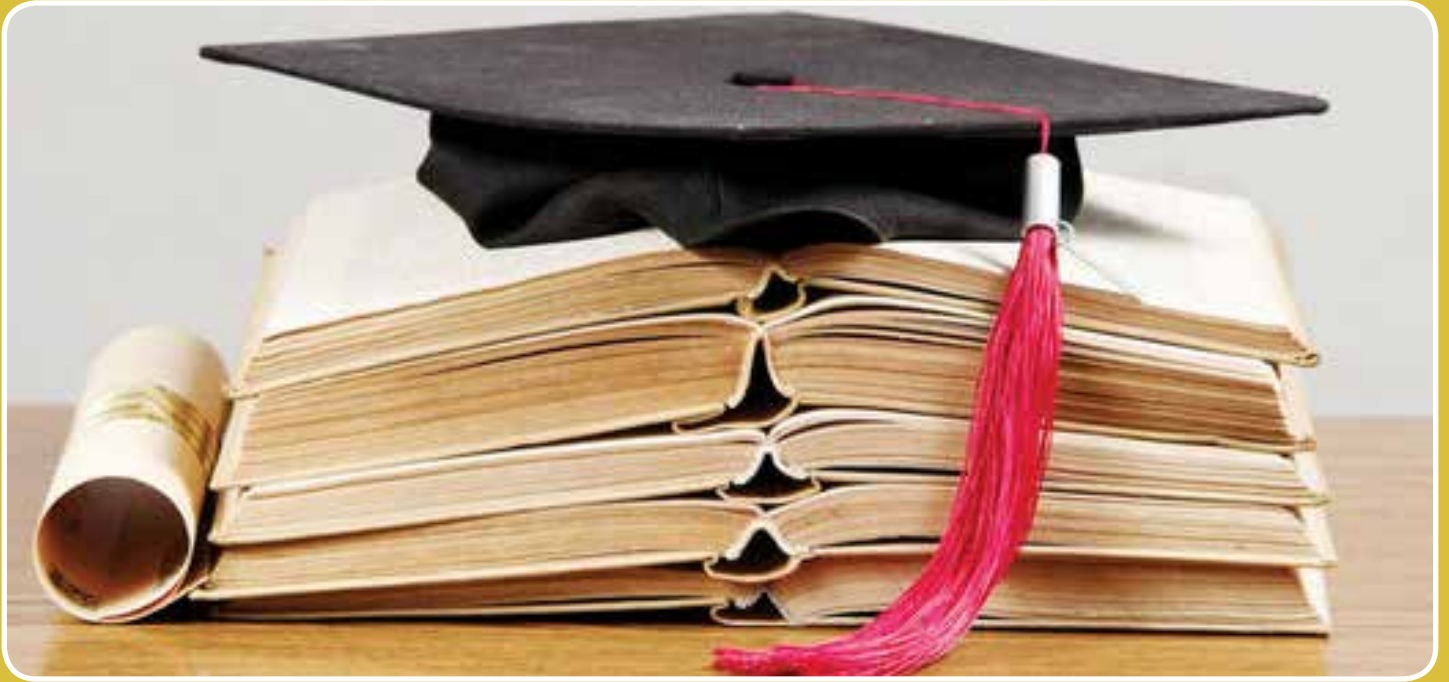

## Nomination Process

- The official nomination form, available on the SKVV website must be submitted, including the nominee's supportable documents.
- Nomination material should be a proper documentation which should assist the SKVV Official Committee in easy reviewing process, including a brief report of the nominee's extraordinary performance and how these contributions distinguish him or her from ordinary to extraordinary.

## Approval Progression

The SKVV Research council through SKVV Official Committee reports about voting recommends Honorary Doctorates and forwards its approved list to the Vice-Chancellor. The Vice-Chancellor solely on his judgment, finalized the list, which will be the final decision.

- An Honorary Doctorate might not be award for misconduct.
- The University degree will be cancelled at any time in case of malpractice and also compensation will be claimed from the Nominators.
- In general not more than twenty honorary degrees will be awarded at each year.

## Masters Degree Programs from SKVV

Students all over the world are well acquainted and connected with the fact that merely getting a Bachelors degree will not help in getting them a good position at their workplace or monetary benefits that they need. Hence, a postgraduate or a Masters degree is essential to accelerate the career graph. Therefore, students after their bachelors start looking for places where they can easily get a masters degree. Another interesting observation about Masters degree has been that students are keen to enroll in online Masters degree program through which they can easily enroll in Masters degree program and complete their post-graduation.

As a result of this change in trend there are many online universities and institutes that offer students Masters degree programs. One such resource that has emerged in recent times as a useful guide to students to enroll in online Masters degree is SKVV. The consultancy services that SKVV provides to students help them gain knowledge and understanding of the different masters degree programs that the SKVV has to offer. In addition to this the educational platform that the faculty at SKVV provides to students helps them get a clear view of the program that the student looks forward to do his masters in.

The excellent and qualified faculty at SKVV ensures that students are provided with the best guidance and assistance that can help them in getting admission in the most reputed master degree programs. Also, SKVV ensures that the educational services that it provides to its students are affordable and do not have too much burden on the student. Hence, with the educational services of SKVV students can enroll in the Masters degree programs based on their liking and credentials.

We at SKVV provide special attention to the case of every student so that none of them can be deprived of the recognition and reward that they deserve. For this we have a special system through which all students and their academic background is assessed and then, based on their evaluation they are provided positions in the Viswavidyalaya.

## Bachelors Degree Program from SKVV

A Bachelors degree is an undergraduate three to five years degree that is awarded to the student on the completion of a certain undergraduate course program. The number of years that a Vishwavidyalaya Bachelors degree takes can depend on the Institute and discipline that the student is attending. Since this is the first proper academic degree awarded to a student by the vishwavidyalaya recognizing his performance and achievements as a student the degree holds immense importance for the student. Every student therefore endeavors his best to achieve his Bachelors degree from an institute that is reputed and prestigious. A common reason for this is the fact that enrolling in a well known vishwavidyalaya provides student the opportunity to gain employment in organizations where his career can get a proper breakthrough in every way once he passes out from his college or university. Many students therefore prefer to spend three or five years to complete their Bachelors degree so that their entire academic tenure can be acknowledged at a professional level rather than going for short cuts such as dropping out from university after two years. It is also important to state here that the range of courses and programs in which Bachelors degree is offered today around the world has become increasingly diversified. The whole range of diversity that online Bachelors degree offers to students contributes to the rising demand and unprecedented popularity of the Bachelors degree on the whole.

The advent of online education and the parallel rise of educational portals have provided immense impetus to students who look forward to get quality education. In this context SKVV has emerged as one of the most reliable platforms through which students can obtain an Bachelors degree through the different Bachelor degree programs of the vishwavidyalaya. The experienced and qualified faculty members that we have at SKVV analyze and understand the case of each student who wants to enroll in SKVV has the chance of initiating a promising and prosperous future after getting an online Bachelors degree from this institute. Students who have applied for these programs through the platform of SKVV are today employed in some of the best and most reputed organizations not in different parts of the world.

## PG Diploma (PGD Program) from SKVV

A Post Graduate diploma is a level of qualification which usually follows after under graduation and is considered a professional degree which can give your career a wonderful head-start. Since it's a higher qualification than a bachelors degree it has even more advantages. The purpose of a post graduate diploma is to grant a level of expertise and become a supplement to the area of study that a student has pursued. Getting a graduate diploma can add value to a person's graduate level degree and help him easily get a better job.

## Diploma (DIP Program) from SKVV

SKVV brings a favorable list of diploma courses for students who need to get settle out early with their career. Without going with degree programs, students can choose these diploma courses of short duration that give awesome chance to get easy and early job globally. Diploma courses are generally based on domain core profession and provide hand on experience during courses. Swami Kartikeyan Vedic Vishwavidyalaya offers various diploma courses in management, engineering, medical, technology, science, education, agriculture, arts, commerce and many more.

## Vocational Training Certificates (VTC Program) from SKVV

Vocational training courses are specific to the career fields that students plan to enter, so they vary widely depending on the type of program. The online vocational training courses at SKVV are designed to prepare students directly for a corresponding career; the skills acquired in these courses can sometimes also be applied in other ways.

SKVV tried to develop a new strategic frame work for Skill development for early Institute leaves and existing workers, especially in unorganized sector in close consultation with industry, Micro enterprises in the organized sector and academic which was essential considering their educational, social and economic background.

Vocational career training can prepare students to enter a variety of career fields that rely on a specific skill set, whether it's automotive repair, electrician, construction, paralegal, heating and air conditioning repair, or medical transcription or billing.

## Institute @ SKVV:

Institute of Engineering & Technology  
Institute of Computer Application  
Institute of Basic & Applied Sciences  
Institute of Management & legal studies  
Institute of Medical and Pharmaceutical Sciences  
Institute of Agriculture & Horticulture  
Institute of Architecture & Planning  
Institute of Arts & Humanities  
Institute of Vocational Training  
Institute of Teacher's Training  
Institute of Vedic & Ayurvedic Education  
Institute of Dance & Acting

## Academics

At SKVV, semester pattern is followed. An academic year consists of two semesters. The Fall (Odd) Semester begins in June and the Winter (Even) Semester in December. The academic schedule mentioned in the academic calendar will be strictly followed.

Qualified subject experts assigned with various theory subjects prepare course plans using the standard format provided by the Vishwavidyalaya with emphasis on 'self learning' of the students. The study/ instructional material and assignments lay emphasis on the following:

- Knowledge content (Topics in the curriculum)
- Self Explorative (Easy to understand)
- Utility value - application in real life
- Latest developments

These study materials may be available in the all the forms of state of the art like modules: Text/ Video/ PPT presentation/ audio. The Online classroom sessions will be interactive and will encourage the students to think independently and inspire their creativity. The faculty will ensure that the students in the class have assimilated the content projected. Online assignments will assign to students for their time-to-time evaluation. The practical will be self explorative. Some videos will available to do the practical in real.

Employers worldwide prefer candidates whose educational credentials are attested by a reliable authority. SKVV offers its students with the facility of lifetime verification of their credentials.

### Student Area

Your personalized student area ('Go to Classroom') allows you to access your course material, interact with your instructor, check your results and register for more courses.

### Apostille And Embassy Legalization Services Area

All international students and alumni are facilitated to get their documents verified quickly and easily through Apostille and Embassy Legalization services.

## Alumni Support Services

SKVV maintains a long-term relationship with their students long after they have left the University, by offering them the following exciting services even after they graduate. Following alumni services are provided to facilitate them in all their endeavors.

### Education Verification Service

Employers worldwide prefer candidates whose educational credentials are attested by a reliable person or authority. SKVV offers its alumni with the facility of lifetime verification of their credentials.

### Free Consultancy Services

Academic advisors are available round the clock, 365 days a year, to address alumni's queries. Get in touch with one of our academic advisor.

### Alumni Area

Your personalized alumni area allows you to view the summary of the program you complete with SKVV. It will keep you updated with the new happenings at SKVV. The area allows you to easily access all alumni services and manage your ongoing relationship with us.

### Apostille And Embassy Legalization Services

All international students and alumni are facilitated to get their documents verified in the quickest and easiest way through Apostille and Embassy Legalization services.

## Credit Transfer (Completing Part Study With Us)

Not every student completes a college/ university degree at a single Institute/ college/university. It is common to transfer to campus colleges, universities or even just between two online universities, after completing some portion of a degree (or earn similar credits of that course).

SKVV is designed to cater to students who may not fit the traditional mold. This includes returning students, those with full time jobs, or students with families or other obligations that keep them from being able to attend classes on a campus. These courses are flexible enough to work for most students. Online courses can also be great for students who want to complete college faster by working over the summer break or who want to supplement their schedule with relevant courses. Some students may even decide to begin a degree with one online program and then decide to Some common factors that could cause students for Credit transfer to SKVV:

- Want to start again after previously discontinued degree
- Moving or relocating to another city or state
- Change in employment
- Change in major of study

## Transfer Credit Requirements at SKVV

To learn about credit-transfer at SKVV, you need the following:

- The credits you are transferring are from a course that is very similar to a required course at SKVV.
- You got at least 50 % in the course you were admitted and can prove that you were held to significant academic standards.
- There should not be a gap of more than 07 years (if gap is there, produce an affidavit)
- You have to pay fee for the left years of the course as applicable at SKVV

## Scholarship

SKVV academic scholarships are highly competitive. Admitted freshmen are considered for these scholarships based on an overall assessment of the application for freshman admission. Priority scholarship consideration is given to admitted students who complete the admission applications by the end of July 2015 priority application deadline.

Scholarship recipients are notified by the end of March 2016 of their senior year.
